The EnVision Partners Process

- ✓ Build a more valuable business
- ✓ Assisting owners and managers to achieve their business objectives by working on the business
- ✓ Build team capability
- ✓ Drive system development and implementation
- ✓ Focus on key financial data

EnVision Partners believes that every small/medium enterprise (SME) requires the services of a Chief Financial Officer (CFO).

It is enlightening to consider the duties of a CFO in a large business. Many of the components of a larger organisation's CFO services are also required by SMEs. Whilst we acknowledge that a SME does not require a full-time CFO, many growing businesses would benefit from an experienced accountant supplying CFO services to assist in the growth and value-adding to the business.

EnVision Partners CFO Services can be packaged to suit the individual needs of your business and may include any of the following areas:

- Financial Functions
e.g. lead, plan and direct the financial strategy of the business
- Commercial Functions
e.g. debtors, WIP, contractual obligations, pricing
- Business Growth
e.g. drive profitable growth, establish strategies and tactics
- Focus On Key Financial Data
e.g. KPIs, benchmarking
- ASIC Administration
e.g. management of administration, coordination of Chairman and Board of Directors
- Executive Management Team
e.g. support leaders, preparation of reporting, strategic directions of the business.
