

Management Consulting

ONE-ON-ONE MEETINGS

An EnVision Partners Consultant will participate in management team meetings at your premise or at EnVision Partners.

PROGRAM PROPOSAL AND TIMETABLE

Based upon your business needs, a scheduled meeting time will be set either monthly or quarterly, with a schedule of objectives to be achieved keeping the process proactive and participants accountable.

- ✓ Build a more valuable business
- ✓ Assisting owners and managers to achieve their business objectives by working on the business
- ✓ Help deliver strategies
- ✓ Mentoring with the CEO
- ✓ Complete confidentiality with your most trusted advisor

Our methodology is to perform an "Executive Director" type role to assist you and your management team to achieve your business' objectives. We'll bring to this project a proactive attitude with our Consultant being prepared to be part of the corporate team and wanting to add value to your business.

Our approach to this assignment will be to offer to perform a number of roles under the general heading "Strategic Business Mentoring".

To do this, we'll deliver a proactive "trusted adviser" service concentrating on the present and future operations of the business. In other words - strategic business mentoring assignment is not interested in delving into the past; we're interested in participating with you in adding value from future activities which will in turn add value to your business.

We'll supply assistance to your management team covering a range of items, including:

- assisting to identify any profit leakage, shrinkage or wastage so as to improve profitability
- assist the management team to achieve the business' plan
- assistance in succession planning for the business, both at executive and CEO level
- assist you in the implementation of systems and processes

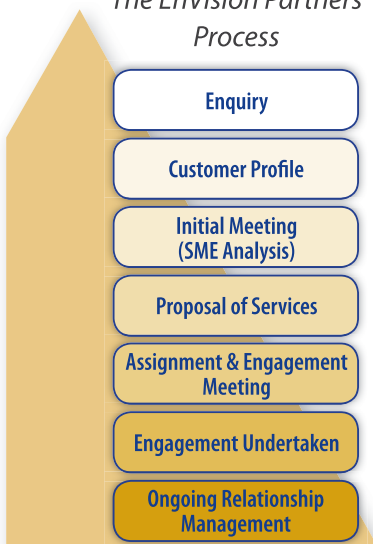

Undertaking a watching brief on other matters, such as:

- human resource management and workplace health & safety
- environmental issues
- new government legislation that might affect the business
- monitor government grants that might be applicable for the business and ensure that an application is lodged for government grants for which the business might be eligible

We'll also assist in the facilitation of business development projects. This could include:

- preparation of the business plan
- facilitating business plan reviews
- monitoring cashflow management, particularly stock, work in progress and debtors
