

## Nimbus Technology – Secure Portal

- ✓ Access your files in the Cloud at any time
- ✓ Share files quickly and easily
- ✓ Security and peace of mind

### EASY SET UP

EnVision Partners team members will assist you with establishing your portal and provide step-by-step guidance for using your portal.

### FREE OF CHARGE

Nimbus is free of charge to EnVision customers.

### CONVENIENT AND SECURE

Access your files from anywhere over a secure connection on a computer or mobile device.

Nimbus Technology is the EnVision Partners secure portal of choice for our customers.

A secure portal is a secure means to exchange and share information with our customers. The result is a broader, clearer communication and increased efficiency.

Portals allow customers not only to retrieve and review financial data, but they can complete forms and upload financial data for processing. It is a simplified communication tool that allows us to work seamlessly with you. Security is another benefit and information can be accessed from outside your office.

Beneficial features of Nimbus are:

- Free of charge to EnVision customers
- Nimbus provides you with access to your own secure client portal
- EnVision Partners are connected electronically to you 24/7
- Allows us to mutually share files such as documents, PDFs, spreadsheets, tax returns, ATO assessment notices, accounting files, images – just to name a few; all at the click of a button
- Create subfolders to manage your files
- Email notifications to you when a file is uploaded or updated
- Device friendly (iPad, smartphone; tablet, computer)
- Forget about storing and transferring files on USB sticks, or portable hard drives
- Your data is securely stored in world class Australian hosted data centres
- All data is securely transferred to and from the Cloud using encrypted connections.

Please contact an EnVision team member today to establish your Nimbus Portal.
